Beginner. Currently learning

Assets

Team player

I am a team player: I prioritize collective goals and actively collaborate with my colleagues to achieve shared results.

Problem Solving

I enjoy solving problems and fully commit to finding a solution. I am often called upon to help my colleagues overcome their technical challenges.

Oloruntobi Olutola

OLORUNTOBI PAUL OLUTOLA

AI Researcher and Software Engineer

Master's student in Data, Knowledge and Hybrid Artificial Intelligence (DKAI) at Université Paris-Saclay. My research interests focus on Natural Language Processing, Information Retrieval, scientific document understanding, AI ethics, and trustworthy AI through impactful research. I hold a First-Class Honours degree in Computer Engineering from the Federal University of Technology, Akure, Nigeria.

Education

Master's Degree in Data, Knowledge and Hybrid Artificial Intelligence (DKAI) – Computer Science

From Sept. 2025 to Aug. 2027 University Paris Saclay Île-De-France, France

Master's program in Data, Knowledge and Hybrid Artificial Intelligence (DKAI), providing advanced training in Artificial Intelligence, Machine Learning, Data Science, Natural Language Processing, Knowledge Representation, and large-scale data management. The program combines theoretical foundations with practical applications to develop expertise in building intelligent, data-driven systems

B.Eng in Computer Engineering (First-Class Honours, 4.59/5.00)

From Nov. 2015 to Oct. 2021 Federal University of Technology, Akure Nigeria

Work experience

AI Engineer

Since Sept. 2026 Questel Île-De-France, France

AI Researcher intern

Since May 2026 Questel Île-De-France, France

- Built and curated a large-scale scientific article dataset (500M+ paper records, 3B+ citation edges) for NLP research.
- Developed scientific article benchmark datasets for retrieval and evaluation.
- Preprocessed and organised full-text scientific literature for large-scale NLP experiments.
- Trained and evaluated scientific text-embedding models on a multi-GPU HPC cluster.

NLP Intern

From Jan. 2026 to Apr. 2026 LISN Orsay, France

- Developed a scientific article benchmark dataset for retrieval and evaluation.
- Preprocessed and organised full-text scientific literature for large-scale NLP experiments.

Full Stack Engineer

From Apr. 2022 to Feb. 2025 Seamfix Limited Lekki, Lagos, Nigeria (Hybrid)

- Created microservices for bulk identity verification and face matching.
- Automated document processing, database updates, and email reporting with results attached.
- Upgraded Angular applications from version 11 to version 15 and resolved migration-related issues. Contributed to user interface revamp efforts to improve speed and user experience.
- Participated in regression testing with the QA team before and after deployments.
- Participated in technical planning and requirements gathering sessions.

Software Development Instructor & Facilitator

From Jan. 2023 to Feb. 2025 Seamfix NextGen Academy Nigeria (Remote

- Designed the training curriculum covering JavaScript, Node.js, NestJS, Angular, and databases.
- Delivered lectures and mentored students in backend development.
- Assisted students in solving technical challenges and developing real-world projects.

SKILLS

Software Engineering
TypeScript, JavaScript, Python, Java, C#, Node.js, NestJS, Spring Boot, Angular, React, Microservices, REST APIs, PostgreSQL, MongoDB, Redis, AWS, Docker, Linux, Git, CI/CD

Data & Analytics
SQL, Pandas, NumPy, Data Analysis, Data Pipelines, Distributed Data Processing, Parquet, Information Retrieval, Semantic Search, Vector Embeddings, Scikit-learn

Artificial Intelligence
Machine Learning, Deep Learning, NLP, Scientific NLP, Transformers, LLMs, RAG, Prompt Engineering, LLM Evaluation, Knowledge Distillation, PyTorch, TensorFlow, Hugging Face, Sentence Transformers
